

The Transfer Press

HEAT PRESSES AND ACCESSORIES

The Transfer Press are agents for Europa Leisure Equipment who, we believe, manufacture the most reliable and user friendly range of heat presses available in the UK. Europa heat presses are widely used by Premiership, Football League and other sporting clubs and organisations.

All Europa Leisure heat presses feature a computerised temperature and timer control module. They are CE approved and are the only heat presses still manufactured in the UK. All presses come with a lifetime heater element warranty and a standard one year inclusive warranty which can be upgraded. Delivery is normally available within a week.

These machines are so simple to use you really can take them out of the box and be producing superb results within minutes with no formal training.

Whether you're a major industrial user, or simply looking for an enjoyable and simple way to augment your income, we believe Europa heat transfer presses are the best possible way to apply heat transfers and sublimation prints to a huge range of products.

Full compliance with EMC (Electro Magnetic Compatibility) legislation. EEC Directive No.89/336/EEC.

Full compliance with The Supply Of Machinery (safety) Regulations 1992 & 1994.

EEC Directive No.89/392/EEC.
